

HOLLAND LIFTGATES NOW AVAILABLE THROUGH

SAF-HOLLAND Group

HOLLAND liftgates are designed and manufactured by SAF-HOLLAND, a global supplier of fifth wheels, coupling systems, landing gear, and axle/brake/suspension systems for commercial trucks and trailers.

HOLLAND liftgates got their start in 1981 when, as it was known at that time, Holland Hitch Canada Ltd. began production of liftgates for their Canadian customers under the TRUCK MASTER® brand name.

Today, HOLLAND liftgates continue to be designed and manufactured at our facility in Norwich, Ontario. Additionally, we have grown our sales and service network to serve customers in both Canada and the United States.

Throughout nearly 3 decades, HOLLAND liftgates have been designed and manufactured to address challenging operational conditions; specifically, harsh winter conditions found in Canada. HOLLAND liftgates have a reputation for dependable cold weather performance, corrosion resistant components and coatings, and long-term durability.

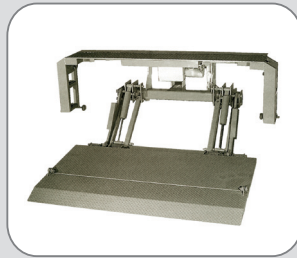

HOLLAND liftgates are backed by an industry leading three year parts and labor warranty.

DH Series
Direct Hydraulic
Twin Column Liftgates

TL Series
Level Ride
Fold-Away™ Liftgates

TG Series
Dual & Single Cylinder
Fold-Away™ Liftgates

DH SERIES

DIRECT HYDRAULIC TWIN COLUMN LIFTGATE

- 4500, 5500 & 6600 lb. capacities
- NoLube® rollers run on greaseless track
- Proprietary roller material stays flexible to -40°F for durability in cold climates
- Patented hydraulic system is resilient to low voltage conditions
- Self-bleeding hydraulics
- Dual power packs configured to provide maximum motor life and faster cycle times (DH55/66)
- Standard power-up/down control and power-open/close
- Standard galvanized chain and inner rails
- Platform chain and flatness adjustment
- Recessed tail lights
- Foot activated, friction lock cart stops are available

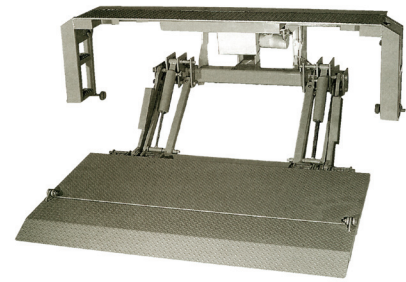

TL SERIES

LEVEL RIDE FOLD-AWAY™ LIFTGATES

- 4000 & 5000 lb. capacities
- Level ride, tilts at ground
- Wide lift arms for stability
- Dual, double acting hydraulic cylinders
- Dual torsion springs assist folding
- Dual automatic lock latches ensure safe platform storage
- Wide 88" platforms
- 1/2" treadplate deck extension
- Available 2", 3" and 5" side steps
- Nitrided cylinder rods, precision honed cylinders
- Corrosion resistant potted control switches
- Master disconnect switch
- Truck and trailer installation kits

TG SERIES

DUAL & SINGLE CYLINDER FOLD-AWAY™ LIFTGATES

- 2500, 3000 & 3500 lb. capacities
- Power-up/down hydraulics
- 5/16" treadplate platform
- Dual torsion springs assist folding
- Dual automatic lock latches ensure safe platform storage
- Wide 88" platforms
- 5/16" and 1/2" treadplate deck extensions
- Available 2", 3" and 5" side steps
- Chromed cylinder rods, precision honed cylinders
- Corrosion resistant potted control switches
- Bi-rotational pump increases solenoid life
- All pivot connections feature installed grease zerks
- Master disconnect switch and circuit breaker

BLACK ARMOUR™ – ADVANCED CORROSION AND IMPINGEMENT PROTECTION

All DH, TL and TG Series liftgates feature SAF-HOLLAND's Black Armour protection. Unlike paint or powder coatings, Black Armour chemically bonds with metal to form a protective skin that is impervious to moisture and anti-icing chemicals. Black Armour will not shrink and remains flexible to resist gravel impact. If scratched, Black Armour prevents the spread of corrosion (rust creep). Black Armour does not require a top-coat, but if necessary, it can be top-coated without pre-sanding.
